

DROUGHT CONDITIONS

We saw some improvement in drought conditions in the Panhandle, but statewide reservoir storage has remained flat. Reservoirs are just less than one percentage point more full compared to this time last year, and that was the lowest statewide reservoir storage had been since 1990 for this time of year.

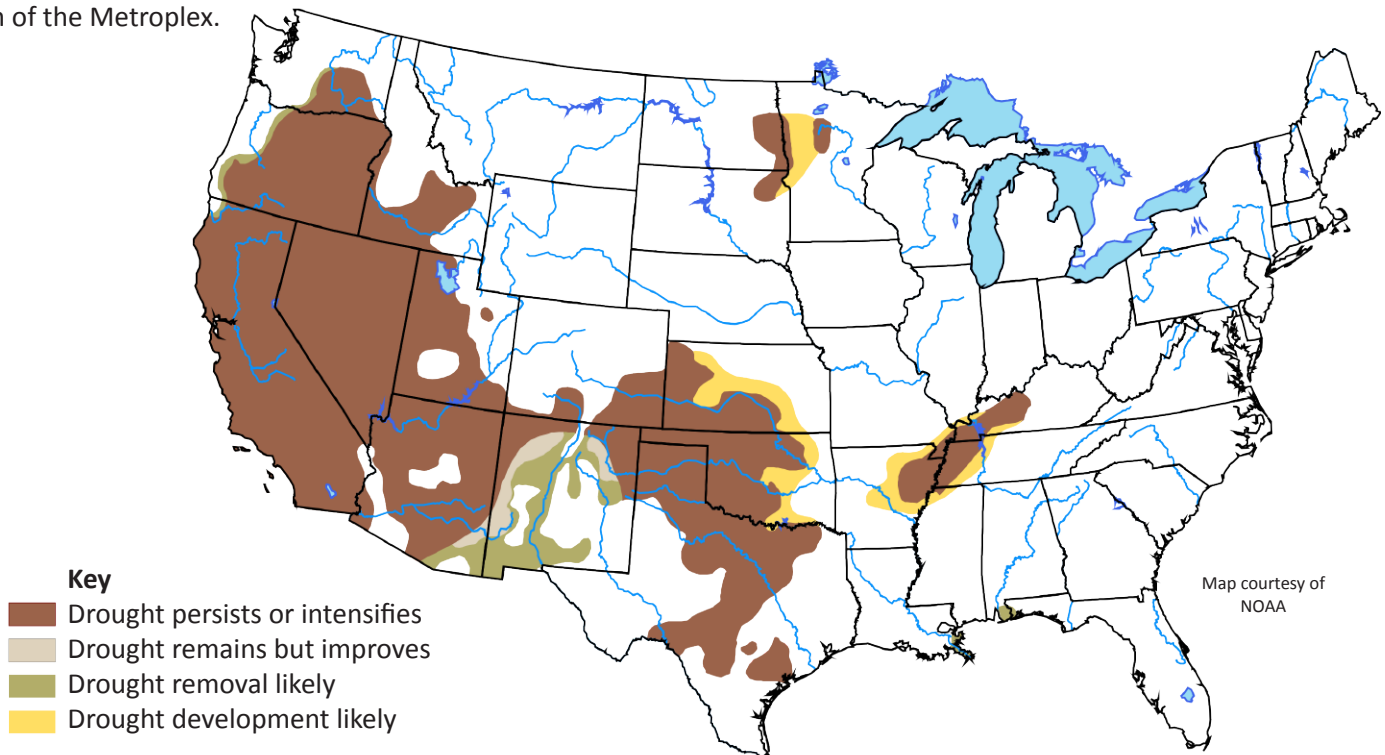

Drought statistics

- 39% of state currently in moderate to exceptional drought
- 39% a week ago
- 48% three months ago
- 52% a year ago

MONTHLY DROUGHT OUTLOOK

The drought outlook for February shows continued drought with drought conditions developing along the Red River north of the Metroplex.
