

DROUGHT CONDITIONS

More good news this week as drought conditions continue to improve and statewide reservoir storage levels have increased 1.7 percentage points (for a total of 3.4 percentage points over the past four weeks). Unfortunately, not everyone has benefitted, with most reservoirs west of I-35 seeing little to no improvement.

Drought statistics

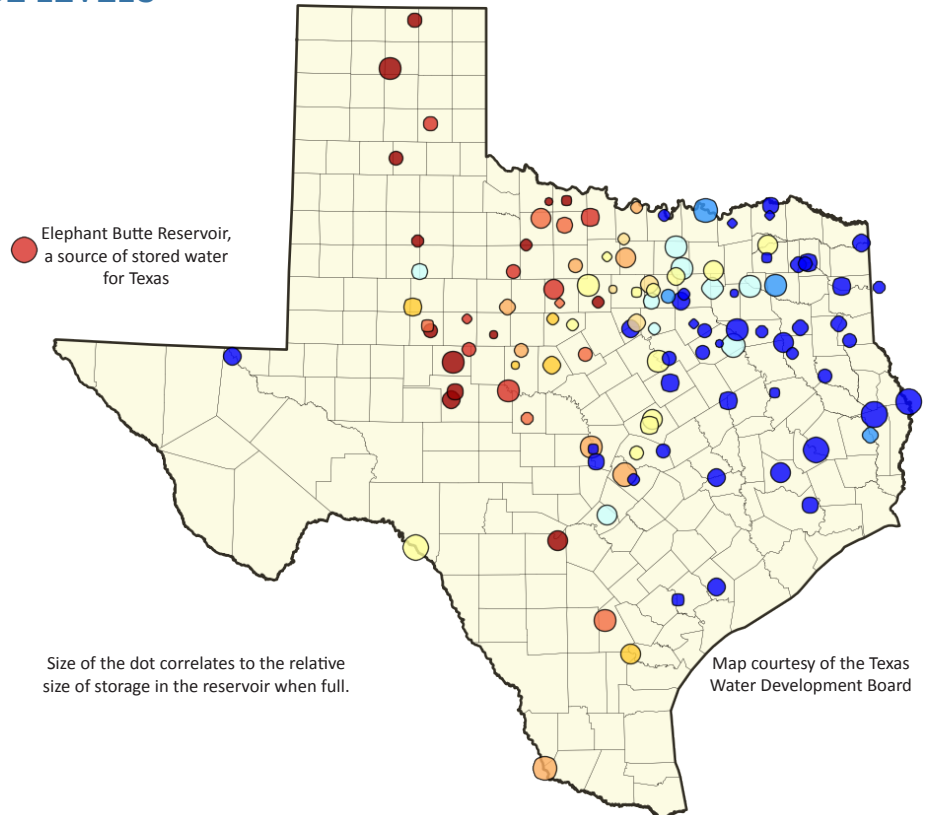

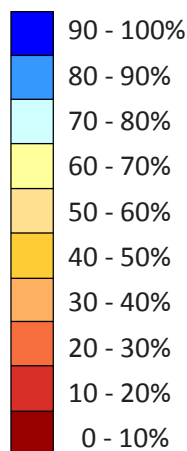

- 41% of state currently in moderate to exceptional drought
- 43% a week ago
- 43% three months ago
- 63% a year ago

STATEWIDE RESERVOIR STORAGE LEVELS

Monitored water supply reservoirs

- Currently 68% full
- 66% a week ago
- 62% three months ago
- 64% a year ago
- Normally 84% at this time
