

Water Weekly

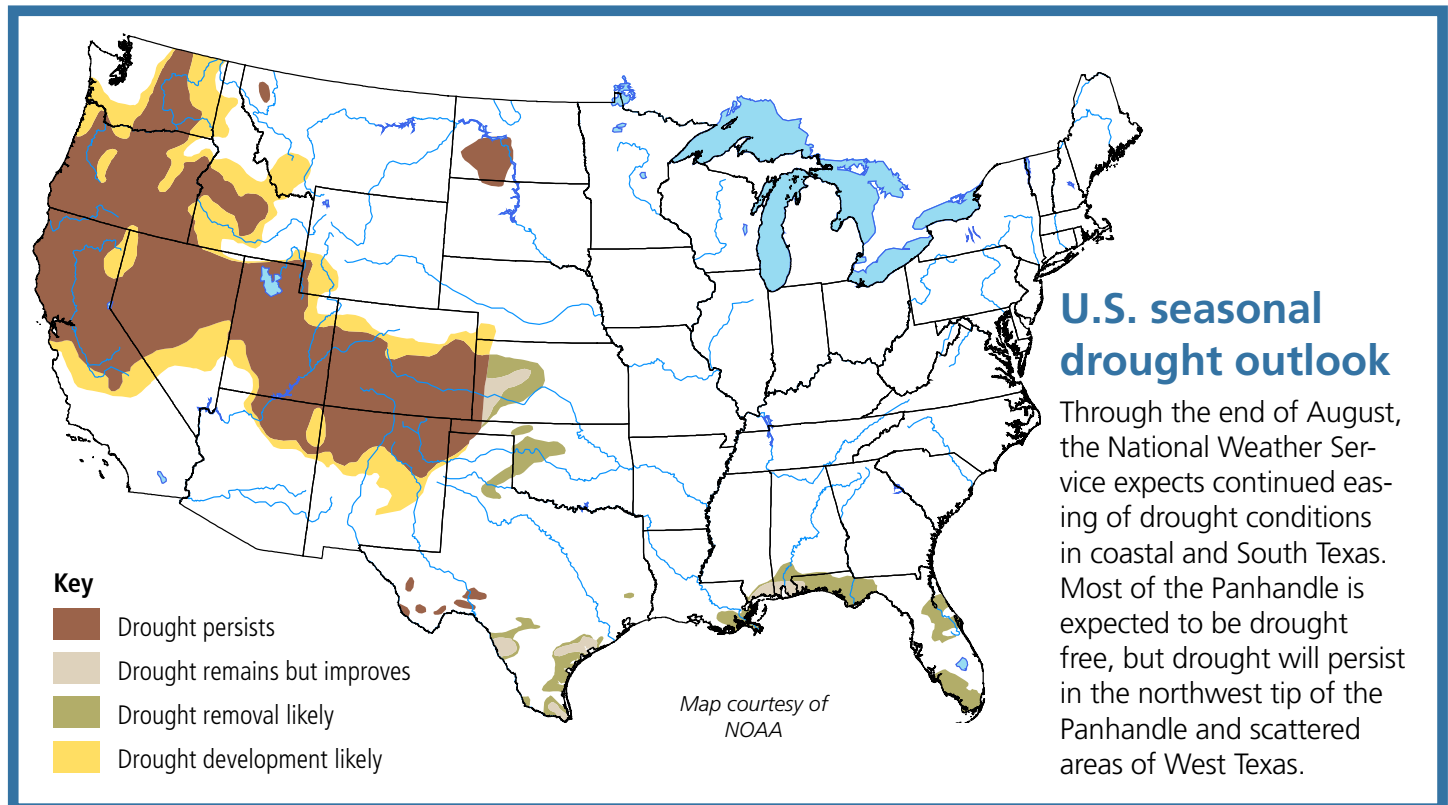

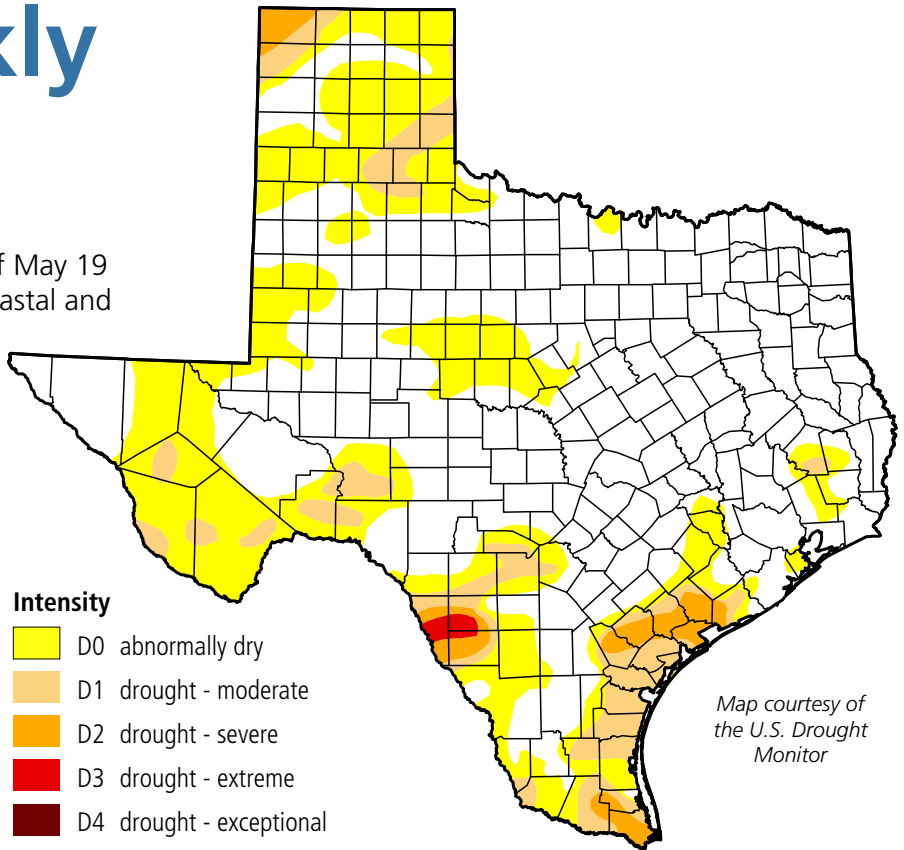

For the week of 05/25/20

Water conditions

The latest drought map for conditions as of May 19 shows widespread improvements across coastal and South Texas. The rest of the state saw a mix of improvements and worsening conditions. Severe or worse drought dropped to three percent of the state, its lowest value since early August 2019.

Drought conditions

- ◆ 11% now
- ◆ 15% a week ago
- ◆ 24% three months ago
- ◆ 0% a year ago
