

# Water Weekly

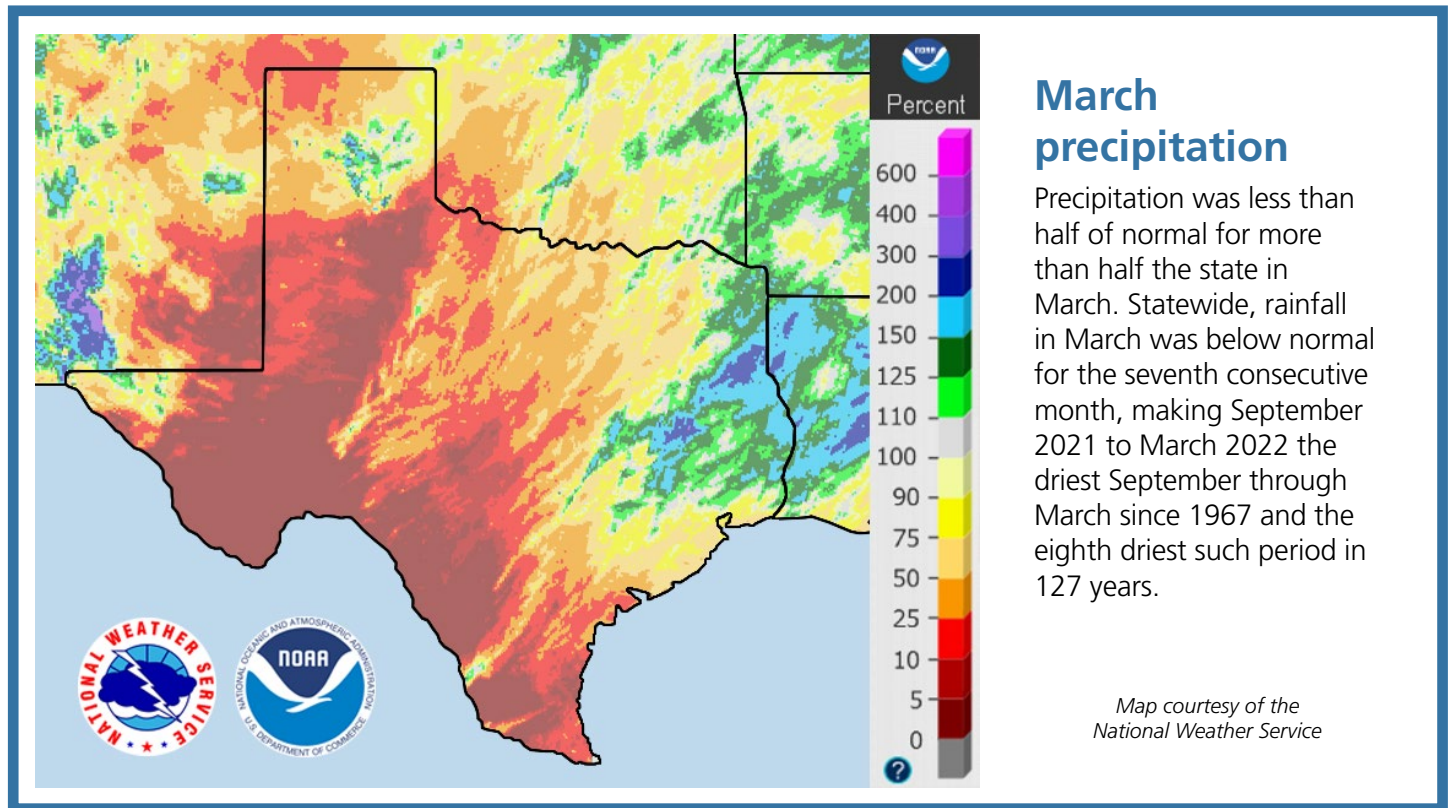

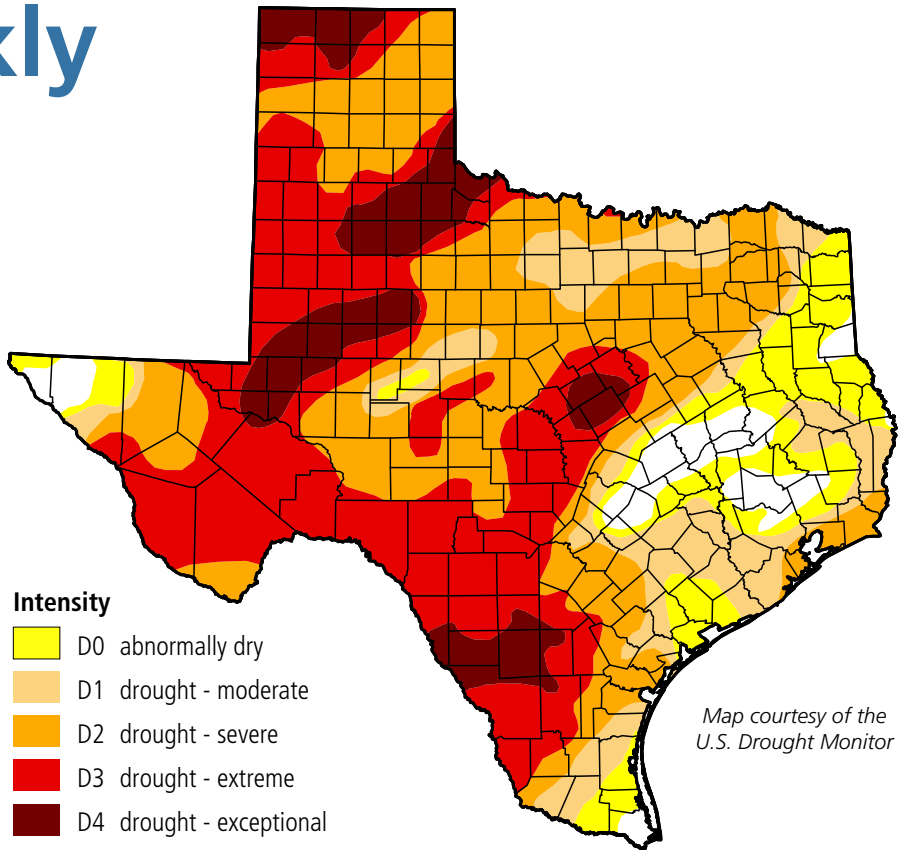

For the week of 04/11/22

## Water conditions

The latest drought map for conditions as of April 5 shows overall improvement compared to the previous week. Recent rains have brought some relief to areas in north central and northeast Texas. In the remainder of the state, drought degradation has continued to outpace drought improvements.

## Drought conditions

- ◆ 85% now
- ◆ 88% a week ago
- ◆ 80% three months ago
- ◆ 74% a year ago
