

Water Weekly

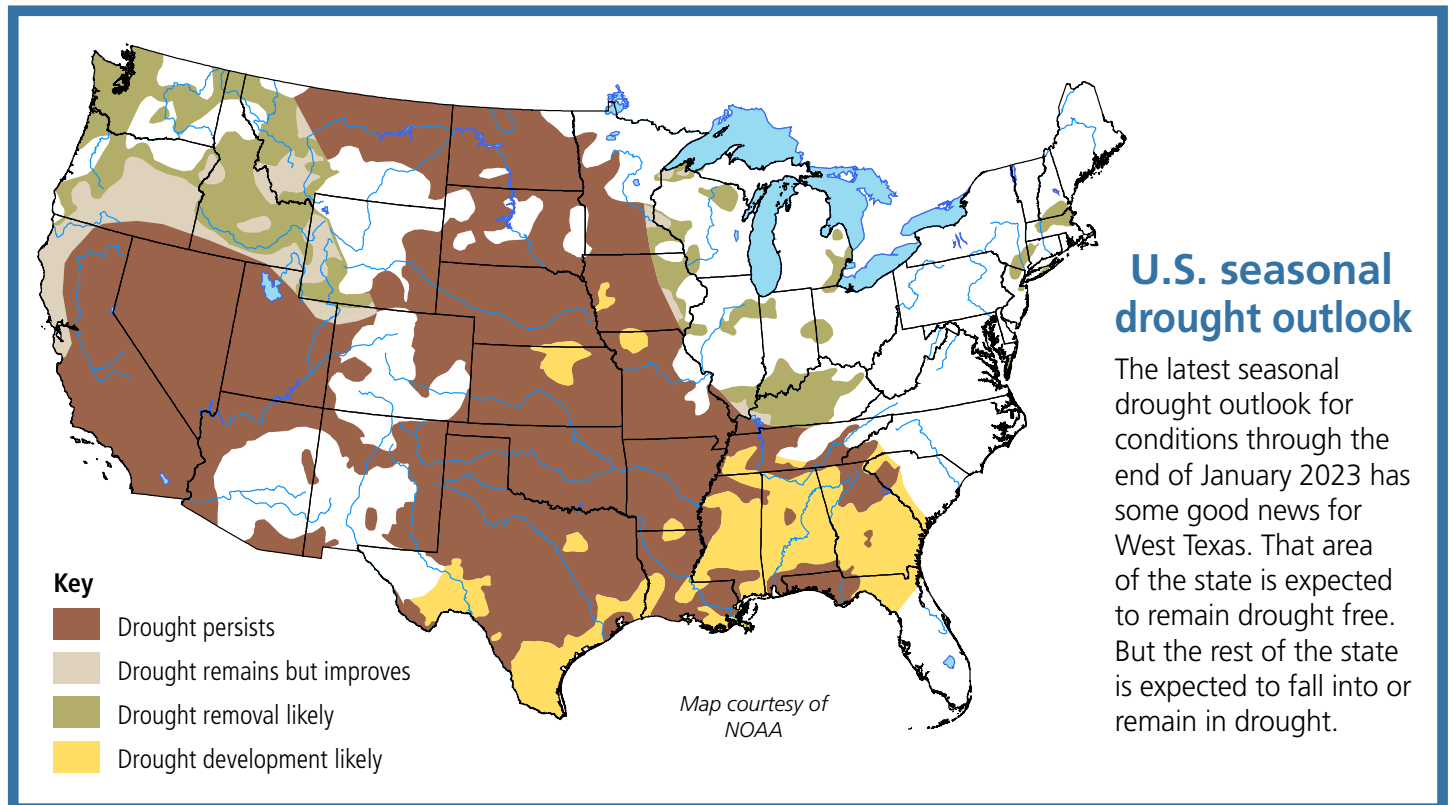

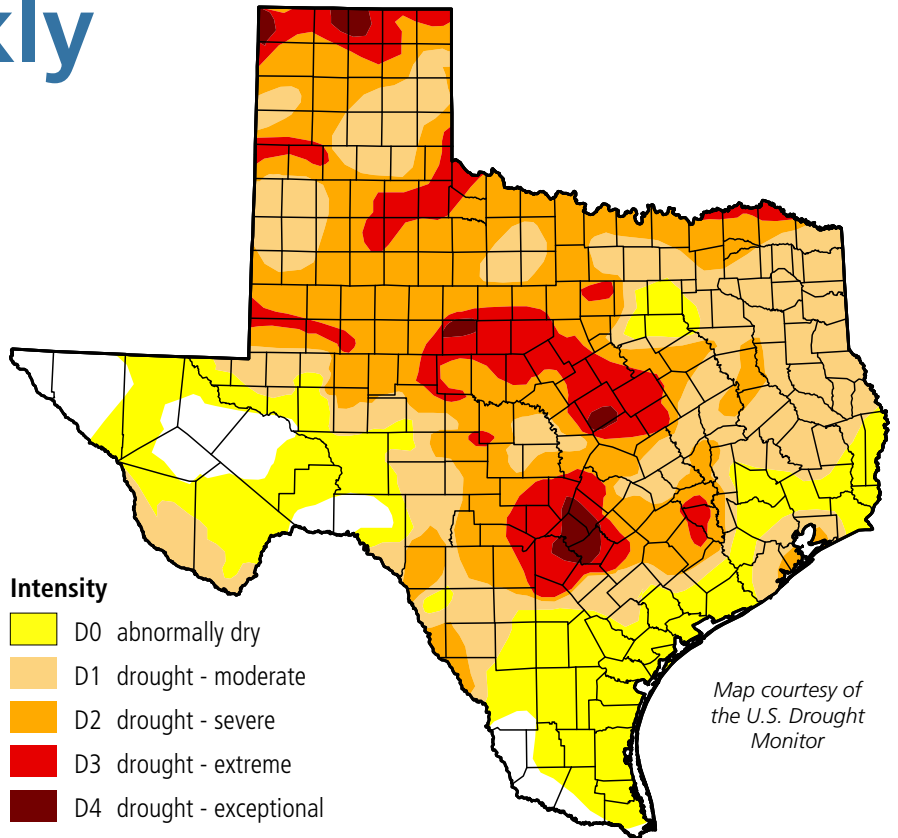

For the week of 10/24/22

Water conditions

In the last week, drought conditions improved in scattered areas of West Texas while degrading in scattered areas of East Texas. As shown in this week's drought map for conditions as of October 18, there was a modest decrease in the area of the state impacted by drought.

Drought conditions

- ◆ 72% now
- ◆ 73% a week ago
- ◆ 95% three months ago
- ◆ 19% a year ago
